U.S. NEWS & WORLD REPORT

2300 N STREET N.W., WASHINGTON, D.C. 20037

The last time
you had a chance like this
to get "U.S. News & World Report"
at a special price . . .

. . . some of the best reasons for having this
magazine which exist today, were not present then.

First of all -- Vietnam. It's now a "big-time"
war by any measure. You can debate its purpose, but
not its impact. It has changed things around in
this country, and is demanding major adjustments
from all of us. This is a time to turn to more
substantial news reporting.

The outlook and emphasis here at home have changed.
War issues dominate, other programs lose ground. There
are new factors for business to watch; new forces at
work on prices, incomes, money; new risks and rewards
for investors. As a practical matter -- it's a good
move right now to get "U.S. News & World Report."

As a personal matter, you'll find this news maga-
zine rewarding. It has new facts, deeper analysis, the
"other side" and the "something more" you don't find
elsewhere. It can sharpen your understanding of news
events, and give new "spark" to the conversations you
take part in.

There may well be even better reasons for making the move to
"U.S. News & World Report" right now -- a recent promotion, a bigger job,
new responsibilities -- any change which gives new emphasis to the fact
that understanding the news is part-and-parcel of success these days
. . . both in business and in managing personal affairs.

Of course, the special \$2.87 offer which this letter carries is
another reason -- and a good one -- for acting now; but I'd prefer you
tried this news magazine for what you'll gain, rather than for what
you'll save.

If you are ready for a change, a challenge, a step-up to more
substantial news reports -- try "U.S. News & World Report."

It gets original news -- the sequel to news you already know,
the consequences of events. It finds out the additional information

about each important news development which helps you understand it, discuss it intelligently, adjust for its impact.

"U.S. News & World Report" answers your questions.

This is far more than a catch-phrase; the editors approach each week's developments from the reader's point of view. They seek to answer the questions which come to your mind after you've read the usual news accounts.

Please look over the headlines on the enclosed copy sheet. They go a long way toward explaining, even proving, what I'm trying to say about this news magazine.

"U.S. News & World Report" has the remarkable 'knack' of knowing where to be, what to look for, what to ask . . . of being right on top of the things that people are asking and wondering about each week.

While most people are reading and talking about what has happened and only guessing at what it means, "U.S. News & World Report" readers are finding out why it happened, what comes next, what the effect will be.

Please accept this invitation to try "U.S. News & World Report" under most favorable terms. The Introductory Subscription we propose will bring you copies for just about 11¢ apiece.

The card with this letter entitles you to the next 26 weekly issues of "U.S. News & World Report" for only \$2.87. The base rate for the same copies is \$9.10 on the newsstand, and \$5.00 by subscription.

Mail the card promptly -- today if you can.

Sincerely yours,

Charles W. Edwards

P.S. Please don't put off mailing your order for lack of a check or money order right at hand. We'll be glad to bill you later on, after your subscription has started . . . and we're anxious to get it started now, so you'll receive the next few issues of the magazine which will carry important articles on Vietnam, changes in the business outlook, Civil Rights, the coming elections in November.

Here are 27 good reasons why you should be reading "U.S. News & World Report" right now. They are a sampling from recent issues . . . news articles, special reports, analyses which will give you an idea of the use and profit you will get from this news magazine.
